

RFD40 UHF RFID Sleds

Faster. Smarter. Future-Proof.

Read 1,300+ tags per second at 20+ foot range with the tool-free RFID sleds that connect instantly to mobile computers and smartphones.

Zebra's RFD40 UHF RFID sled is the ultimate answer for more efficient cycle counting, asset tracking and mobile productivity.

Faster Cycle Counts, Tracking and RFID Workflows

Zebra's RFD40 UHF RFID sled is the ultimate answer for more efficient cycle counting, asset tracking and mobile productivity. With the RFD40, you can read over 1,300 tag reads per second with a range of 20+ feet, all in an easily adaptable and future-proof device that connects to virtually any eConnex-enabled mobile computer.

1,300+ Tag Reads Per Second

Slash inventory time with the sled that's 30% faster than other devices and frees up more time to serve customers and complete other urgent tasks.

20+ Foot Read Range

Say goodbye to tag reading limitations and hassles with long-range and reliable RFID reading in the palm of your hand.

Future-Forward Device Connectivity

Connect instantly to the latest Zebra eConnex-enabled mobile computers, including WWAN-enabled devices, the TC21/26, EC50/55 and future models.

Bluetooth and NFC Tap-to-Pair Connectivity

Connect to current and future Zebra mobile computers and third-party smartphones with tap-to-pair Bluetooth 5.1 and NFC capabilities.*

Fast and Tool-Free Device Swaps

Quickly adapt your sled to virtually any mobile computer without retrofitting, using the easy-to-change and tool-free adaptor.

Better Efficiency for Any Workflow

Track and manage inventory, assets, people, and locations with unprecedented speed and productivity.

*Premium and Premium Plus only.

Three Models to Meet Your Needs

RFD40 UHF RFID Standard Sled

- 30% faster RFID tag reading vs. leading competitive devices
- 20% more durability than competing devices
- Up to 2x more battery capacity for full-shift run time
- Exclusive eConnect adaptors
- Tri-function programmable trigger
- 115+ regulatory certifications for global rollouts
- Headache-free configuration with Zebra's 123RFID

More Battery Capacity and Charging Options

Read tags for hours with a quick-release 7000mAh battery and flexible charging for your sled and mobile computer using cradle cups, charging pins, and/or USB-C.

Ultra-Accurate Item Finder Mode

Easily locate critical inventory, assets or people with an ultra-accurate item-finder mode that eliminates time-consuming searches.

Tri-Function Programmable Trigger

Use a single trigger for RFID reading, barcode reading, and a user-definable third function such as push-to-talk.

Batch Mode for Offline Data Collection

Read up to 40,000 RFID tags offline, with no mobile computer or host needed.

Remarkable Versatility

Mount and connect the RFD40 to your choice of Android™, iOS and Windows devices with a variety of OtterBox uniVERSE-compatible adaptors.**

** Available only with the RFD40 Premium and RFD40 Premium Plus models

RFD40 UHF RFID RFID Premium Sled

ALL THE CORE RFD40 FEATURES PLUS:

Integrated Wireless LAN*

- Wi-Fi 6 capability for easy over-the-air (OTA) device management
- Bluetooth and NFC tap-to-pair connectivity

RFD40 UHF RFID Premium Sled

ALL THE CORE RFD40 FEATURES PLUS:

Integrated Wireless LAN*

- Industry First

1D/2D Barcode Imaging**

- Integrated Zebra SE4100 imager for added barcode scanning functionality.

* Additional features are available only on the RFD40 Premium or RFD40 Premium Plus sleds.

* Premium and Premium Plus only

** Additional features are available only on the RFD40 Premium or RFD40 Premium Plus sleds.

RETAIL

Better Efficiency Across Your Retail Operations

The RFD40 is the fast and flexible way to start reading RFID tags in your retail operations or scale up and optimize your existing RFID workflows.

With RFID capabilities in the palm of their hands, your associates can manage inventory, pickups, deliveries, returns and store operations with time-saving automation and accurate tracking at every step.

The adaptable RFD40 sled is easy to use and connect with your existing WWAN and eConnex-enabled mobile computers, or you can use it with any new and future Zebra devices you deploy.

RETAIL USE CASES

- Cycle Counts
- Item Finding
- Planogram Compliance
- Returns
- Inventory Management
- Warehouse Management
- Back-of-store Management
- BOPIS/BOPAC
- Direct Store Delivery
- Route Accounting

HEALTHCARE

Better Patient Safety and Patient Care Outcomes

With the automated efficiency, accurate identification and seamless tracking of RFID technology, healthcare providers are delivering safer and more effective care than ever before.

Using the RFD40 sled, you can identify and track each patient, specimen, medication, medical device and supply to ensure the right treatment is matched to the right patient and help eliminate potentially deadly and costly medical errors.

HEALTHCARE USE CASES

- Patient Identification, Admissions and Tracking
- Specimen Tracking
- Medication Administration
- Pharmacy Management and Tracking
- Chain-of-Custody and Compliance Tracking
- Medical Device Locating, Management and Maintenance
- Hospital Asset and Supply Tracking and Locating
- Staff Management, Tracking and Access Controls

HOSPITALITY

Superior Hospitality for Events and Guests

Elevate your hospitality service quality with RFID card and tag reading for check-ins, event ticketing and loyalty programs. Plus you can streamline your hospitality workflows with automated identification, locating and tracking for inventory, food and beverage, and mobile guest service.

The RFD40 makes it easy with a tool-free changeable adaptor that lets you add RFID reading capabilities to your touch mobile computers, all without the cost or hassles of buying a separate handheld RFID device.

HOSPITALITY USE CASES

- Check-In and Administration
- Event Ticketing
- Loyalty Cards
- Food Safety and Traceability
- Inventory Management
- Mobile Service Workflows

RFID Solutions from Experts You Can Trust.

As a leading provider of RFID technologies, services and integration, we specialize in helping your organization streamline data capture and workflows with the power of wireless mobile automation.

Our experts recommend and deliver best-in-class solutions to meet your business needs and achieve optimal results at the lowest total cost of ownership. And we do it all with a relentless commitment to doing what's right for your business, which is why we partner with Zebra, a global leader in RFID, barcoding and mobile computing.

Zebra Technologies

As an innovator in data capture and automation since 1969, Zebra is known throughout the world for the high performance, uncompromising quality and rugged durability of its products. If you're looking to capture your edge and create more efficient operations, Zebra solutions deliver the best value and results at every turn.

Get Started with the Faster and Simpler Solution for RFID

Contact us now to learn more about Zebra's RFD40 and how you can use it to speed up your tracking, asset management and mobile workflows.
